## **Introduction and Overview**

#### INTRODUCTION

The North Texas Tollway Authority's (NTTA or the Authority) Special Projects System Five-Year Capital Plan (SPS Capital Plan) is developed to plan for the maintenance, renewal, improvement and/or replacement of capital assets.

The SPS Capital Plan includes current year estimated expenditures approved through the annual budget process and five subsequent year estimates to be used for planning purposes only. The subsequent years are reevaluated, updated and/or extended as part of the annual budget process. As a multi-year planning tool, the SPS Capital Plan is comprised of projects carried over from previous years and projects being initiated within the next five years.

The SPS Capital Plan is adopted annually by the NTTA Board of Directors; changes to the plan require Board approval. The projects listed in the SPS Capital Plan and projected expenditures do not constitute a firm commitment by the Authority to fund the project.

#### LONG TERM FINANCIAL PLANS

Three major factors inform SPS's long term financial plans: traffic and revenue estimates provided by independent traffic and revenue engineers, estimated maintenance expenses provided by the independent general engineering consultant and estimated net debt service provided by independent financial advisors. Cost estimates are guided by the Toll Equity Loan Agreement (TELA) Project Budget.

#### A. Revenue Fund

Estimated total revenue over the next five years is \$491.2 million. Approximately \$470.7 million or 95.8% of total revenue is based on projections provided by the traffic and revenue engineers (see Major Revenue Source, page 68). Approximately \$20.5 million or 4.2% of total revenue is estimated by the Authority and includes ZipCash administrative fees and estimated interest earnings on projected cash balances. Total revenue growth is projected to average 11.9% per year from FY2016 through FY2020. All SPS revenues on deposit in the Revenue Fund must be distributed to the other funds in accordance with the Trust Agreement with Supplements (see Flow of Funds, pages 45-64).

#### **B. Debt Service Fund**

In order to fund SPS construction, NTTA has issued 1<sup>st</sup> and 2<sup>nd</sup> Tier debt. NTTA maintains Debt Service Funds to pay these debt obligations. Over the next five years, principal and interest requirements total \$378.2 million. Estimates are provided by the Authority's financial advisor. The funds flow from the Revenue Fund and are expected to match the required debt service (see Flow of Funds, pages 46-49).

The Trust Agreement requires a 1<sup>st</sup> tier debt service coverage (gross revenues divided by net debt service) of 1.25 times. The debt service coverage ranges from a low of 1.42 in FY2016 to a high of 1.98 in FY2018. (See pages 13)

## Introduction and Overview (continued)

#### C. Operating Fund (OF)

OF expenses for the next five years are estimated at \$130.6 million. These funds are required to run the day-to-day operations of the Authority. According to the Trust Agreement with Supplements, revenues must be transferred to the OF to cover expenses and maintain a reserve balance (see Flow of Funds, pages 49-50, and Cash Balances, pages 49 and 66). A projected \$118.6 million for operating expense will be transferred from the FY2016 – FY2020 revenues to OF. The remaining \$12.5 million will be funded from the General Fund.

The estimated operating expenses for FY2016 are prepared by the individual departments and compared to the general engineering consultant estimates. The operating expenses are expected to increase an average of 8.8% per year between FY2016 and FY2020. (See Appendix F page 71)

#### D. Major Maintenance Fund (MMF)

This fund was created to account for the reasonable and necessary expenses of repair and maintenance that do not occur at annual or shorter periods, as reasonably determined by the Authority for preserving or extending the useful life of the President George Bush Turnpike – Western Extension (PGBT-WE), and the Chisholm Trail Parkway (CTP) projects and to provide repairs and maintenance of the projects in accordance to the TELA Project Agreement Standards. These expenses include, without limiting the generality of the categories; expenses for periodic roadway resurfacing and repair, replacement of toll collections, vehicle identification, toll integration and video enforcement equipment, and all administrative and engineering expenses related to the major maintenance expenses.

The Authority elected to use the GASB 34 Modified Approach to account for maintenance of infrastructure assets. As required by the Trust Agreement, an annual inspection of the Authority's roadways is conducted by the general engineering consultant. This inspection provides an assessment of conditions of all SPS infrastructure assets (roadways, bridges and facilities). The assessment of conditions is made by visual and mechanical tests designed to reveal any condition that would reduce user benefits below the set minimum level of service. The Authority's goal is to maintain the infrastructure assets at a rating of eight or better (1 to 10 scale) and has established a minimum level for GASB 34 purposes of a condition level of six or greater. These condition levels were adopted by the NTTA Board of Directors by Resolution No. 02-31 on June 19, 2002 and further clarified by Resolution No. 07-169 on December 19, 2008. The roads are maintained at the Project Agreement level in order to enhance the customers driving experience.

The MMF is funded from revenues deposited to the Major Maintenance Reserve Fund in accordance to the TELA. The MMF estimate for FY2016 through FY2020 is \$27.4 million, an average of \$5.5 million per year. This estimate is composed of \$20.6 million of project costs (see Major Maintenance Projects, pages 25-27) and \$6.8 million for professional fees and allocated salary and benefit costs. The MMF will be funded with \$27.4 from the Major Maintenance Reserve Fund.

## Introduction and Overview (continued)

#### E. Capital Expenditures Fund (CEF)

The Capital Expenditures Fund was created to account for the cost of repairs, enlargements, extensions, additions, improvements, reconstruction and replacement of capital assets. In accordance to the TELA Project Agreement the PGBT-WE First Widening project is scheduled to start FY2018. The PGBT-WE Second Widening project is scheduled to start FY2029.

The FY2016 - FY2020 SPS Capital Plan includes \$22.3 million for the PGBT-WE First Widening. These costs will be funded with \$17.3 million from the Capital Expenditures Reserve Fund and \$5.0 million from Construction Fund bond proceeds. The funding is in accordance to the TELA. (see pages 31-33).

#### F. Construction Fund (CF)

The Authority issued \$400 million of bonds secured by revenues deposited into the NTTA System Capital Improvement Fund. These bonds are subordinate to the Authority's third tier bonds. The proceeds of the bonds were used to finance a portion of the cost of developing the PGBT-WE, and the CTP, (see pages 37-39).

In April 2011, the Authority issued approximately \$1.1 billion in bonds and bond anticipation notes to finance an upfront payment to the Texas Department of Transportation (TxDOT) for PGBT-WE and the development and construction of PGBT-WE and CTP. In November 2011, the Authority issued \$640.5 million in bonds to finance the remaining construction for CTP. This debt is not issued under the NTTA Trust Agreement and is not secured by NTTA System revenues; rather, the bonds are issued under a separate Special Projects System Trust Agreement. Neither PGBT-WE nor CTP is expected to be added to the NTTA System in the foreseeable future.

These construction projects are funded with bond proceeds and amounts from other sources that are specific for the projects. Over the next five years, Construction Fund costs are estimated at \$9.8 million; comprised of \$8.4 million in construction costs and \$1.4 million in professional fees and allocated salary and benefit costs. The majority of the construction costs totaling \$9.1 million are for CTP; \$3.0 million for possible purchase of land for a facility and \$6.1 million to finish out construction items. The remaining bond proceeds of \$28.5 will be used as follows: \$23.5 million to pay debt service and \$5.0 million will be transferred to CEF to pay for PGBT-WE First Widening.

## **Project Types & Funding Sources**

#### **MAJOR MAINTENANCE PROJECTS**

Major maintenance and capital replacement projects included in this category are maintenance projects that do not recur on an annual or more frequent basis and replacement of other infrastructure assets as outlined in the TELA. Funding for these projects comes from the remaining revenues available after debt service and operating cost obligations have been satisfied; and/or SPS reserve funds in accordance to the TELA.

#### **CAPITAL EXPENDITURES PROJECTS**

Projects that fall into this category include existing roadway expansions, improvements and/or reconstruction. In addition, projects with capital expenses unrelated to new road construction and/or maintenance are included here. Funding for these projects comes from the remaining annual revenues available after debt service, operating cost and reserve maintenance costs have been satisfied; and/or SPS reserve funds in accordance to the TELA.

#### **CONSTRUCTION PROJECTS**

Construction Projects that fall into this category include non-NTTA System roadway projects. Funding for these projects comes primarily from the sale of revenue bonds; however, other funding sources such as loans, grants, reimbursements and equity contributions may be considered.

## **Major Maintenance Projects**

Major maintenance and capital replacement projects include repairs and maintenance, painting, renewals, replacements, improvements, and other projects necessary for the safe or efficient operation of SPS toll roads or to prevent loss of revenues. These projects are not typically included as part of the normal, day-to-day operations, but rather should be viewed as part of the overall long term maintenance of SPS assets. The FY2016 – FY2020 Capital Plan includes \$27.4 million for these projects; \$20.6 million for project costs and \$6.8 million for agency overhead which includes engineering fees, annual inspection and allocated salaries and benefits.

#### FLEET AND EQUIPMENT PURCHASES / ADDITIONAL & REPLACEMENTS

The NTTA replaces fleet vehicles and equipment at specific intervals based on useful life and necessity. Once purchased, fleet vehicles and equipment are used for ongoing operations and maintenance. The Capital Plan includes \$0.3 million for this category and it is aligned with the TELA Project Budget.

#### SYSTEMWIDE MAINTENANCE PROJECTS (ROADWAY, BRIDGES, WALLS AND OTHER ASSETS)

The NTTA will maintain the SPS assets at the approved TELA Project Agreement level. Each year after the Annual Asset Condition Inspection is completed by the general engineering consultant; individual projects are prioritized and then selected for inclusion into the following fiscal year budget. The Capital Plan includes \$15.3 million for this category for the next five years, an average of \$3.1 million per year. This amount is completely aligned with the TELA Project Budget.

#### CAPITAL REPLACEMENTS

Capital replacement projects include intelligent transportation and electronic toll collection systems, fiber, dispatch technology and digital messaging travel time sign technology. The Capital Plan includes \$5.0 million for this category, an average of \$1.0 million per year. This amount is completely aligned with the TELA Project Budget.

## **Capital Expenditures Projects**

The capital expenditures projects include costs of repairs, enlargements, extensions, additions, improvements, reconstruction and replacement of capital assets. In accordance to the TELA Project Agreement the PGBT-WE First Widening project is scheduled to start FY2018. The PGBT-WE Second Widening project is scheduled to start FY2029.

#### **PGBT-WE FIRST WIDENING**

President George Bush Turnpike Western Extension (PGBT–WE) is an approximately 11.5-mile extension of PGBT from SH 183 to I-20. TxDOT constructed SH 161 from SH 183 to I-30 and opened the roadway in phases from 2009 through 2010. NTTA constructed Phase 4 of the project, from I-30 to I-20, which was completed in October 2012. The \$22.3 million estimated in FY2018 through FY2020 is for the addition of one main lane in each direction from I-30 to I-20, which is in accordance with the project agreement with TxDOT.

# **Construction Projects**

Special Projects System Construction consists of non-NTTA System projects. These projects are considered stand-alone projects and do not rely on the NTTA System to fund their operating and maintenance costs. These projects are governed by a separate Trust Agreement and are accounted for on TxDOT fiscal year, September through August.

#### PRESIDENT GEORGE BUSH TURNPIKE WESTERN EXTENSION

President George Bush Turnpike Western Extension (PGBT–WE) is a new, approximately 11.5-mile extension of PGBT from SH 183 to I-20. TxDOT constructed SH 161 from SH 183 to I-30 and opened the roadway in phases from FY2009 through FY2010. NTTA constructed Phase 4 of the project, from I-30 to I-20, which was completed in October 2012. The \$0.7 million estimated in the Capital Plan is for minor landscaping and sand stockpile items.

#### **CHISHOLM TRAIL PARKWAY**

Chisholm Trail Parkway (CTP), a new 28-mile toll road, is a limited-access toll road in southwest Tarrant County and northwest Johnson County. It extends from Fort Worth's central business district to southwest Fort Worth, continuing south to Cleburne and provides and alternate north-south route for I-35W. CTP opened to traffic in May 2014. The Capital Plan includes approximately \$8.0 million for completion and finish out work for the project through FY2017.

#### INTRODUCTION

The North Texas Tollway Authority's policy for the adoption of the Operating Budget (budget of current expenses, annual budget or Operating Fund) and the Major Maintenance Fund for the subsequent fiscal year is outlined by the Trust Agreement with Supplements and guided by the TELA.

In conjunction with development of the Operating Budget, staff prepares estimates of expenditures for the Major Maintenance Fund, Capital Expenditures Fund and Construction Fund, which is approved by the NTTA Board of Directors in a resolution.

#### **CAPITAL PLAN PROCESS**

Capital Plan projects are classified into three categories: Major Maintenance Projects, Capital Expenditures Projects and Construction Projects (see Project Type and Funding Source, page 11). Each year, individual departments utilize the Hyperion budget module to complete project request forms for new projects or update the previous year projects to revise estimates and/or extend the year(s).

The requests are further classified by project type, purpose and priority. These classifications assist in the decision making process. The Budget and Compliance Division (BCD) creates project lists for the three project categories and creates summary reports. In addition, BCD staff updates the long term financial plan schedules. The forms, lists, reports, and schedules are compiled to create the Five-Year Capital Plan Project Requests Book, which is delivered to the executive management team for review and approval. The executive management team is comprised of the Authority's executive director, the chief financial officer, and the Assistant Executive Directors.

Any changes from the review and approval process are incorporated into BCD reports, and the Five-Year Capital Plan book is created. The Capital Plan is presented to the NTTA Board of Directors' Finance and Audit Committee for review and recommendation. Upon Finance and Audit Committee recommendation, the Capital Plan is presented to the full Board of Directors for adoption.

#### **CASH BALANCES**

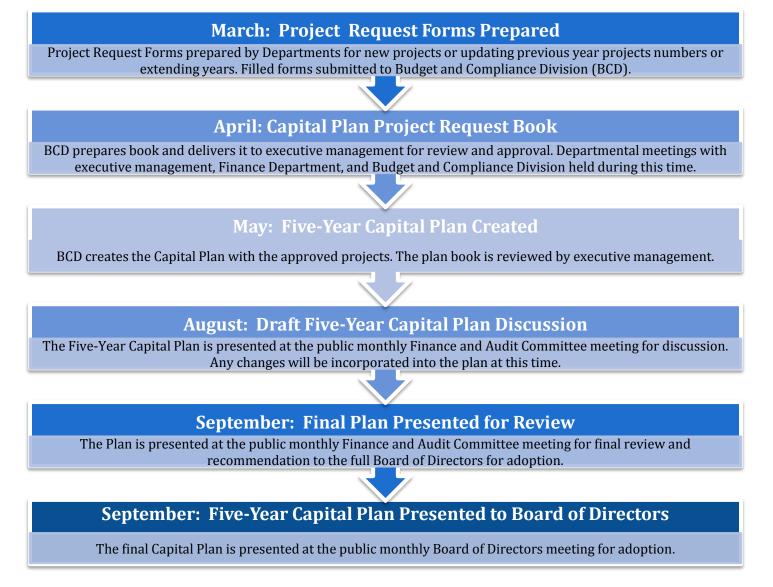

The Trust Agreement requires that some funds maintain cash balances. These cash balances contain both cash on deposit and investments held in the fund as follows:

Operating Fund is required to maintain a cash balance equal to one-sixth (1/6) of the total operating budget amount for the current fiscal year.

Major Maintenance Fund is required to maintain a cash balance equal to one-sixth (1/12) of the total major maintenance expenses scheduled for the current fiscal year.

## **Appendix D: Major Revenue Source**

#### SPECIAL PROJECT SYSTEM – MAJOR REVENUE SOURCE

Toll revenue collected on the projects is the Special Projects System major source of revenue. It accounted for \$470,654,100 of the FY2016 – FY2020 Capital Plan total estimated revenues of \$491,198,633, or 95.8%.

#### **TOLL REVENUE**

The Authority Act authorizes the Authority to fix, revise, charge, and collect tolls for the use of the NTTA System, and provides that such tolls will be so fixed and adjusted as to provide funds sufficient with other revenues, if any, to pay the cost of maintaining, repairing and operating the NTTA System and the principal of and the interest on bonds issued in connection with the NTTA System as the same become due and payable, and to create reserves for such purposes. The Authority Act states that such tolls will not be subject to supervision or regulation by any agency of the State or any local governmental entity.

The Authority covenants under the Special Projects System Trust Agreement that all Revenues (excepting investment income from all Funds and Accounts other than the Revenue Fund which shall be retained in such Funds and Accounts) will be deposited daily, as far as practicable, with the Trustee or in the name of the Trustee with the Depositary to the credit of the Revenue Fund. Amounts deposited to the Revenue Fund will be distributed in accordance to the Trust Agreement (see page 44).

The Authority has covenanted to charge toll rates on the Project that do not exceed the maximum rates for each user classification as per the Project Agreement, unless the Authority determines that it is necessary to (a) preserve the financial condition of the Project (or if the Project is later made part of the NTTA System), (b) comply with the provisions of any bonds, notes, trust agreements or other financial instruments or agreements secured by revenues of the NTTA System, or (c) comply with law.

The schedule below shows C&M Associates, Inc. toll revenue estimates for the System.
