

## Looking Out for You

Got a flat tire and stranded on the side of an NTTA road? Don't stress, call Roadside Safety Services (RSS)! NTTA's FREE roadside assistance team will help you get safely back on the road. In fact, "Safety" is their middle name.

Call #999 if you need help on an NTTA road, 24/7/365. Check out how many drivers the RSS team helped last year alone!

Did you know? They also clear debris to help keep your NTTA ride a smooth one.

While these numbers may seem large – and they are – the only numbers you need to remember are **#999** – any time you need help on an NTTA road.
