What to Know Before You Go

March 2022

As part of NTTA's continual effort to improve your travel experience, we debuted a new interactive map on [NTTA.org](https://www.ntta.org) this month.

Want to check travel times before hitting the road? The new map will allow you to check traffic across the NTTA system from Burleson to McKinney.

NTTA's dedicated maintenance staff works around the clock to keep our roads clean, safe and well maintained. Occasionally these repairs require the closure of a lane or ramp. Our new map allows you to know when and where lane closures will happen, keeping you informed about travel conditions across our system.

So, whether you are taking a trip to downtown Fort Worth, the American Airlines Center, Legacy West, or anywhere else in DFW, our new interactive map can help you plan your route. It's just another way NTTA strive to provide you value and connect our communities through clean, quality roads.
