

## **Know Before You Go: Ramp Up Your Summer Plans with the Latest Sam Rayburn Project Update**

The temperature is “ramping up,” and so is the work on the future Preston Road exit ramp for the [Sam Rayburn Tollway \(SRT\) Fourth Lane Project](#). To keep your summer travel smooth, we want to tell you about the important construction work ahead.

Crews are working to build a new ramp to replace the eastbound Parkwood Boulevard and Preston Road exit ramps on the SRT, near the Stonebriar area and Dallas North Tollway. This new ramp will separate drivers exiting in the Stonebriar area, helping to keep the flow of traffic moving smoothly.

To complete these improvements, the SRT Preston Road exit ramp will be closed to traffic for 45 days beginning within a few weeks. We will keep you posted on the exact dates. Please remember to be alert and use extra caution while driving in construction zones.
