

TOLLTAG INSIDER

NEW!
Your TollTag
works in most
of Florida!

March 2023

Just in time for Spring Break!

The convenience of TollTags now work in parts of the [Sunshine state](#) (except some toll roads in the Orlando area) and you'll also receive the lowest toll rate.

Save time for more fun in the sun by not having to stop and pay cash at toll booths (and avoid receiving a separate pay-by-mail invoice). Tolls will be automatically, and conveniently, deducted from your TollTag account at the lowest toll rate. [Check out this map](#) to see where to use your TollTag in Florida.

If your travels take you elsewhere, your TollTag also works in Kansas, Oklahoma and throughout Texas. We're working to bring you the same convenience and savings in other states.
