TIPS TO KEEP ROLLIN' TROUBLE-FREE THIS SUMMER

July 2023

Before you hit the road this summer, let's make sure you take advantage of all the benefits of a TollTag. TollTag customers get the lowest toll rates. And – a TollTag account has NO monthly fees, which means more money in your pocket for fun in the sun. Plus, [TollTags work on toll roads in Oklahoma, Kansas and most of Florida!](#) With all this in mind, check out these TollTag account tips before you hit the road this summer to help ensure a smooth trip:

- **Expiration Check:** Make sure you don't get a pay-by-mail bill at the higher toll rate – have a valid payment card on file so if your account gets below the minimum balance, it's automatically replenished. To check your account and/or add a payment card, [log in to your account](#) at any time.
- **Vehicle Upgrade:** Do you have a new ride? If so, you will need to add your newest vehicle to your TollTag account. If you've gotten rid of a vehicle, don't forget to remove that vehicle from your account so you aren't paying for someone else's tolls. You can do this [here](#) or [by contacting our Customer Service team](#). If the vehicle was sold to an individual, please file a [TXDMV](#)

[Vehicle Transfer Notification \(VTN\)](#) and be sure the buyer's name and contact information are included.

- **Stay Connected:** To stay in the know regarding TollTag updates, make sure to keep your address, phone number and email up-to-date on your [account](#). Don't forget to activate [your TollPerks account](#) so you can earn and redeem points for great rewards, just by driving on NTTA toll roads! If you're already a TollPerks member, check out the [website](#) for cool summertime offers to save money.
