

TOLLTAG INSIDER

Look at it Grow!

See All the Places Your TollTag Will Now Go

Taking a mile-high road trip? NTTA's TollTag now provides the lowest toll rates while driving on most toll roads in Colorado.

[Six Colorado toll roads](#) (E-470, I-25 Express Lanes, US-36 Express Lanes, C-470 Express Lanes, Central 70 Express Lanes and I-70 Mountain Express Lanes) join toll roads in Oklahoma, Kansas, Texas and parts of Florida to provide convenience and the lowest toll rate with your TollTag. Before hitting the road, make sure your TollTag account is in good standing to qualify.

This good news works both ways. Visitors from Colorado with their own toll transponder will also receive the lowest rates on NTTA roads. As a note of caution, vehicles should **NOT** have more than one toll transponder.

Easily and conveniently manage your TollTag account online. Your toll road usage in any of the above states will be included on your TollTag statement.

NTTA continues working with toll agencies across the nation to make the TollTag operable on other toll roads. Stay tuned!
