

THINGS TO KNOW ABOUT ENGINEERS

ntta.org

- 1) NTTA has 14 licensed engineers on staff.
- 2) Our engineers are involved in the following specialties: project planning, design, construction, maintenance, safety, mechanical and electrical.
- 3) NTTA engineers graduated from nine different universities. The institution represented the most being Texas A&M University. Go Aggies!
- 4) NTTA engineers maintain their professional engineer license annually through continuing education courses, conferences and seminars, and volunteering with STEM activities. You can meet an NTTA engineer and participate in a STEM activity at Pave The Way Day on Saturday, April 26.
- 5) While undergraduates, our NTTA engineers loved learning about steel structures, hydrology, and thermodynamics, but Engineering economics was the favorite among most!
